

Samuel H. Solomon

Samuel H. Solomon is a successful entrepreneur and business executive with over 30 years' experience in the legal, financial and information technology industries. Sam's unique perspective, eclectic education and varied experience makes him a much sought-after speaker and business consultant. Mr. Solomon founded and led his company, www.doar.com, in ultimately generating two capital transactions for the firm and retiring in August 2009. Today, Sam is Chairman of www.mobideo.com, an Industry 4.0 software platform to optimize complex workflows in the oil & gas/petrochemical industry – with customers including Dow Chemical worldwide and Koch Industries, and recently founded pro-Israel NGO www.returnisrael.org. Sam has an MBA, with distinction, from New York University in Finance; a MS from Bernard Revel Graduate School in Philosophy; Rabbinic Ordination from Yeshiva University; and a BA from Yeshiva University in Mathematics. Sam and his wife, Meryl, made Aliyah in 2010 and have two children and a bevy of grandchildren living in Israel. They live in Beit Zayit just outside of Jerusalem.

Current Business Engagements:

Chairman/Lead Investor – Mobideo Technologies LLC, 2009 to Present

- Mobideo is a patented Industrial Workforce Management Platform, that digitizes and optimizes complex industrial assets in real-time and at great scale. A \$1 Trillion/year market in diverse industries as O&G, Chemicals, Aviation, Manufacturing and Construction and addresses 'people' as the biggest risk in industrial operations.
- Assisted in capital raise over \$25mm and growing forecasted ARR of \$10mm in 2020.
- Currently acting as the EVP of Business Development and Ventures.

Managing Director and Founder -- Arizal Services, 2005 to Present

- Private holding company for investments and strategic consulting advisory services.
- In-depth experience monitoring technology, marketing, finance and governance activities; cooperation with private equity participants engaged in private and public companies.
- Strong interest in U.S. and Israel technology transfer and early stage IT and agritech initiatives.
- Personal investments of nearly \$3.5mm – returns have fully covered principal investments.

Emerged from retirement in January 2015 to assist Kent Yalowitz, Esq. and the Arnold and Porter team in jury selection and strategy regarding the recent matter Mark I. Sokolow, et al vs. The PLO and PA in the SDNY resulting in a record verdict of \$220mm (plus treble damages and accrued interest).

Prior Work Experience:

Member of Board – The Trendlines Group, 2009 to 2013

- Top technology incubator in Israel, in part funded by private investors and Israel's Office of the Chief Scientist.
- Participated in establishing Israel's first Agricultural Technology Incubator.
- Assisted in capital raises.

Founder, Chairman & CEO – DOAR Litigation Services, 1989 to 2008 (Retired)

- DOAR (www.doar.com) is a premier litigation consulting firm supporting top-tier law firms and corporations involved in high-stakes business litigation and regulatory matters. Based in New York, this privately held firm is one of the industry's fastest-growing companies and a current leader in the litigation consulting market category covering information, technology and consulting services. Many of these matters involving issues of corporate governance and fiduciary accountability.
- Participated in such high stakes proceedings as the World Trade Center Insurance Litigation (record multi-billion-dollar verdict), N.Y. Times Construction Litigation at their state-of-the-art printing facility and the WorldCom Underwriters Litigation. Cases with record settlements and verdicts including medical malpractice (\$6mm in Colorado), electrocution (\$6mm in Louisiana), breach of contract (\$48mm in New York).
- Conceived and assisted in the creation of a data mining product for large litigation information repositories, Inference Data, LLC. (www.inferencedata.com).
- Successful growth to \$53mm annual revenues with 220 employees, ultimately generating two capital transactions for the firm, the last involving a \$90mm private equity valuation and significant cash investment.
- Sold interest and retired from DOAR in August 2008.

Vice President, McGraw-Hill -- Data Resources and Standard and Poor's divisions, 1985 and 1988

- Directed international marketing, software development, and database publishing operations for the business and financial markets
- Responsible for over \$20 million in revenue and 60 employees.
- Created DRI's first CD-Rom product - 'Explore'.

Vice President – Mainstay Software, 1982 to 1985

- Innovative database base software company based upon the IBM PC computer.

Vice President – Lehman Brothers, 1980 to 1982

- Responsible for all analytical, marketing and administrative systems for the Investment Banking and Capital Markets groups.

- Team built the Lehman Brothers Fixed Income Index.
- Created decision support strategy and grew the department of 30 professionals in less than a year.

Manager of Software Development – ADP Network Services, 1977 to 1980

- Responsible for timesharing financial interactive analytics for Wall Street firms.

My initial curiosity with personal computing and technology was sparked in 1975 when I built an IMSAI 8080 computer -- one of the first 1,000 PC kits made in the U.S.
